Instant Dedicated Internet Access: We Guarantee You Get the Bandwidth You Purchased Instantly!

We offer a dedicated 1:1 bandwidth allocation, guaranteeing optimal network performance around the clock. Our Instant Dedicated Internet Access (DIA) is available for swift provisioning, ensuring a rapid and hassle-free connection setup which means that the specified amount of bandwidth the customer ordered can be used instantly!

DConnect's IP backbone network enables you to guarantee the highest availability and lowest latency on the market today. We offer single connections for traditional connectivity, or fully-redundant connections for mission-critical applications, and provide different tiered bandwidth options (1-100 Mbps, 100-500 Mbps, 500-1000 Mbps). DConnect not only provides a reliable, scalable connection for your business services but also empowers you with the flexibility to choose the bandwidth that precisely aligns with your operational needs, ensuring a tailored and high-performance connectivity solution.

Benefits

-  **Reliable Performance**
Enjoy a stable and consistent connection that keeps your business operations running smoothly.
-  **Scalability**
Tailor your connectivity to meet your exact needs, and scale your bandwidth to ensure that you always have the right amount of resources.

About DConnect

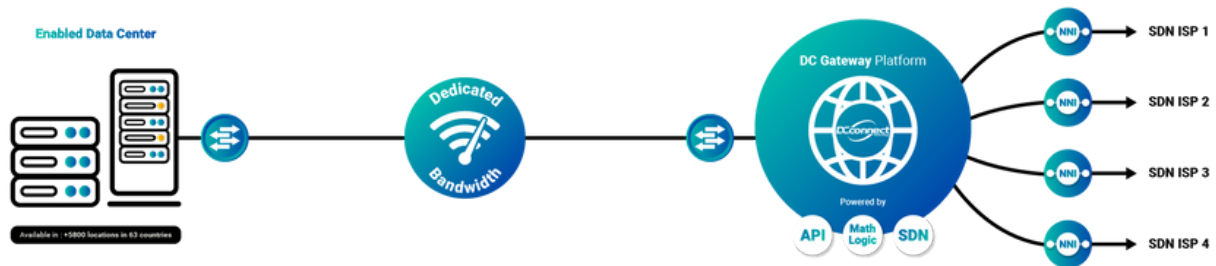

Welcome to DConnect Global, your premier network service provider dedicated to delivering unparalleled connectivity and driving digital transformation.

We offer premium internet services that empower businesses and enterprises through our innovative Network-as-a-Service (NaaS) wholesale and white-labeled product – a first-of-its-kind in the industry. With DC Gateway, we enable efficient interconnection of diverse Autonomous Networks using open APIs.

At DConnect Global, we specialize in delivering Internet Services, Global Connectivity, and Telco Automation, designed to streamline your operations and fuel your success in the digital realm.

-  **Cost-Effectiveness**
Achieve a high-performance network without breaking the bank, we allow you to allocate resources efficiently while maintaining a lean budget.
-  **Instant Provisioning**
We set up your DIA connection swiftly and effortlessly, minimizing downtime and maximizing your productivity.

Instant Dedicated Internet Access Topology

Instant DIA aims to provide on-demand dedicated internet access service for the customer using the DC Gateway ecosystem, powered by API, SDN, and Math Logic technology. This means that the specified amount of dedicated bandwidth for the customer from major regions and data centers is instantly assigned and guaranteed for their immediate use.

Technical Specifications

Service Parameter	Description
Bandwidth Options	Range from 1Mbps to 10Gbps
MTU Size	Standart Ethernet Payload 1500 bytes
Mode of Interconnect	Gateway Mode / Route Mode
Route Mode	Static Route / BGP Route
Allowed WAN IPv4 CIDR	/30 Public or Private address
Allowed WAN IPv6 CIDR	
Available LAN IPv4 CIDR	/30, /29, /28 Public address
Available LAN IPv6 CIDR	/48, /56, /64 Public address
Maximum Allowed IPv4 set	3 sets of IPv4 CIDR
Contract Period	1 Day / 1 Week / 1 Month / 1 Year
Billing Options	Flat Rate / Burstable at 95 percentiles*
Remark*	Burstable option will be applied to 1-year contract only and it is available to Operator only
Best Features	<ul style="list-style-type: none"> On-demand Dedicated Internet Access Real-time Provisioning Variable Bandwidth Options Flexible Billing Options
Provisioning	<ul style="list-style-type: none"> The circuit is being delivered by a Dot1q circuit IPv4 CIDR: /30, /29, /28 Up to 3 groups of IPv4 assignment

Let's Work Together

Your business deserves the best connectivity solutions, and DCConnect is here to help you achieve those goals. Let's work together and find the right solutions!
